

Good Morning Fleet Operators.

My name is Bill Herndon. I want to take a minute to introduce you to my company, HER Enterprises, LLC, www.herelc.com. We are a Certified AMSOIL Dealer, www.lubedealer.com/heroil. We have been an EVANS Cooling Systems Dealer for Over ten years, and now are a stocking warehouse distributor in the Midwest. HER Marketing Group, LLC is a Green Foot Global Distributor; www.greenfootglobal.com/thetimeisnow. I am not here to sell you anything that you are not already using; oil and coolant. The difference in using AMSOIL and EVANS products is they will SAVE your fleet money. AMSOIL was "First in Synthetics in 1972!" AMSOIL has a superior product!

On our HER Enterprises, LLC website, www.herelc.com, you can access AMSOIL's Cost Calculators A.9. Fill in the blanks using your current costs and compare. Companies purchasing lubricants for use in company vehicles or equipment may qualify for an AMSOIL Commercial Account. AMSOIL Commercial Accounts purchase AMSOIL products at wholesale commercial prices for use in your business vehicles and equipment. An application form must be completed. When your business is approved, you can purchase products directly from AMSOIL using your assigned Commercial Account Number (ZO Number). AMSOIL Inc. also extends 30-day credit to businesses that apply for credit reference approval.

AMSOIL Oil products, generally allow the following oil change intervals:

1. Auto & pickup - New AMSOIL "OE" Synthetic Motor Oil is recommended by vehicle Manufacturers today. Its advanced synthetic technology resists chemical breakdown for Maximum wear protection (and peace of mind) well beyond the traditional 3,000-mile Oil change interval.
2. Autos & Pickups - Oil change intervals; of 10,000 and 25,000 miles Diesel - Heavy 2006 & earlier 3 times OEM or 30,000 miles — Greater with Oil Analysis
3. Diesel - Light truck oil change intervals; 3 times OEM — Greater with Oil Analysis
4. Diesel - Heavy 2007 & newer OEM requirements — Greater with Oil Analysis

EVANS Cooling Systems Coolant products are Waterless, and defined as new technology. EVANS Overview follows this letter on HER's website www.herelc.com. The EVANS Overview gives a very detailed summary of our featured Heavy Duty Thermal Coolant (HDTC). I am here to answer questions, solve issues, and save your business real dollars. AMSOIL and EVANS products perform as advertised! Blessings.

Thank you for your time and consideration.

In your service,

Bill Herndon
